

## RESPONSE FROM MR. CLAY.

Before the news of the nomination of Mr. Clay for the Presidency, by some of his friends in New York, had gotten fairly circulated, he not only declined the nomination, but forbade the use of his name in that connection. The rejoicings of our loco-foco friends, at the prospect of a division in our ranks were cut short, on their very lips.

The Republican of Tuesday morning contains a Telegraphic dispatch from Louisville, dated the 18th, which says, Mr. Clay has authorized the publication of a paragraph, in which he says, that, while he feels deeply and gratefully affected by the desire to which many of his ardent and faithful friends cling, of electing him to the Presidency, he cannot accept a nomination to that office, if tendered to him—feeling bound by the decision of the Philadelphia Convention. He does not wish, and cannot consent, that any further use shall be made of his name in connection with that office.

This is what all Whigs expected of Mr. Clay, as soon as the news of his nomination reached him—and it is what the locos might also have expected, had he been his course had not their wishes gotten the start of their judgement.

Col. Benton has written a letter to the people of California and New Mexico, in which he talks to them like a father, and abuses Gen. Kearney and Col. Mason.—Old Bullion writes as if he were President, Cabinet and Congress, and dates his letter in royal style. We heard a prominent democrat say not long since, that he was in his dotage—and verily this letter, with other recent acts have a terrible squinting that way.

Frost.—There was a slight frost on Wednesday morning and a pretty heavy one yesterday morning. We suppose it was not severe enough to materially injure the Tobacco.

St. Louis appears to be literally infested with thieves, who knock down and rob people, break open and plunder houses, with impunity. Surely the government of that city must be in bad hands, if, through the agency of the police, such daring acts of robbing as the papers daily chronicle, cannot be prevented. We notice complaints in the papers of the inefficiency and brutality of the police, which seem to pass unheeded by the authorities. Our city friends may rest assured that the reputation of their place is suffering by this state of things.

**WESTERN ACADEMY.**  
This Academy is located on the South side of the Missouri river, about thirty miles below Fort Leavenworth, and is under the superintendence of Rev. Thomas Johnson, formerly of this place. Rev. Nathan Scarritt, late of Howard High school is principal. They are both admirably adapted to their stations, and under their control, the school will doubtless be one of the best in the country. The location is a beautiful one—the buildings good. The superintendent and Principal have entire control of the place, and scholars will be under their immediate control, both in and out of school. Their terms are moderate and boarding can be had cheap; for further particulars address either Superintendent or Principal at Westport, Jackson county, Missouri.

Fruit.—See advertisement of Samuel Grove, Esq. A fine opportunity is offered to our citizens to supply themselves with fruit trees of every variety.

The Whigs of New York have nominated the Hon. Hamilton Fish as their candidate for Governor.

The Barnburners have nominated the Hon. John A. Dix for Governor, and Seth M. Gates for Lieut. Governor.

**Diffusion of Slaves.**—In 1810, there were 59,000 slaves in Kentucky, Virginia, Maryland and Missouri; now there are over 195,000. In 1790, the whole number of slaves in the Union amounted to 597,890; now they number more than 2,500,000.

**Fire.**—The tobacco barn of Mr. Robert W. Agee of Bowling Green Prairie, Chariton county, took fire on Tuesday morning last, but through the exertions of those present, the fire was extinguished with a loss of about 6,000 of the 15,000 pounds of tobacco contained in the barn. —Glasgow News.

## FEVERS.

Fevers, like every other form of disease, are only an effort of nature to expel from the body something that is opposed to health; it is merely a struggle between the good and bad humors for supremacy, and the commotion which ensues is called Fever. The usual symptoms of a Fever are heaviness, anxiety, sighing and yawning, with alternate fits of cold and heat, after which the patient complains of pain in the head and back, thirst, difficulty of breathing, pain in the limbs, a sense of fullness about the region of the stomach, nausea and sickness, with sometimes a vomiting of bilious matter.

Wright's Indian Vegetable Pills will be found peculiarly adapted to the cure of ALL KINDS OF FEVER, because they not only thoroughly cleanse the stomach and bowels from all bilious humors, but they open those excretory vessels which empty into the bowels, and consequently the impurity contained in the circulation, (which is the cause of all disordered motions of the blood, called Fevers,) is thrown into the bowels, from whence it is carried off by the regular alvine discharges.

In using Wright's Indian Vegetable Pills for Fevers, the only cure necessary is, to have the medicine operate COPIOUSLY BY THE BOWELS. If the symptoms are urgent, from four to eight pills should be taken, night and morning, until the fever has subsided, after which smaller doses, once in twenty-four hours, will be sufficient to restore the body to a sound state of health.

**Beware of Counterfeits.**—THE ONLY ORIGINAL AND GENUINE INDIAN VEGETABLE PILLS HAVE THE SIGNATURE OF WILLIAM WRIGHT WRITTEN WITH A PEN ON THE TOP LABEL OF EACH BOX. None other is genuine, and to counterfeits is this FOREVER. The genuine is for sale by BOON, TALBOT & SMITH, sole agents for Fayette; D. C. CHAMPTON, Champion's Mill; S. CARROLL, Glasgow; FELIX REDDING, Keytesville; M. T. ATKINS, Brunswick; and wholesale and retail by HENRY BLANKLEY, St. Louis. Office and general depot, 169 Race Street, Philadelphia.

Beware of travelling impostors.

S. O. T.  
Rev. Geo. C. Light will deliver an Address before Howard Division, No. 34, S. O. T., in the College Chapel, this (Friday) evening, at candle-lighting. The citizens of the place are respectfully invited to attend.

**COLONIZATION.**  
Rev. Geo. C. Light will deliver an Address on the subject of Colonization, in the College Chapel, this (Saturday) evening, at candle-lighting. The public is respectfully invited to attend.

Elder W. C. Ligon will preach in the Baptist Church in this place to-morrow—Sunday.

## Monthly Bulletin No. 9.

DYSENTERY, DIARRHŒA, &c., Positively cured in a few hours. The Graefenberg Company pledges itself to the following facts:

1. The Graefenberg Dysentery Syrup will cure the Diarrhœa, Dysentery, &c., in twenty-four hours.

2. A cure is warranted, no matter how bad the case; even if the discharges are bloody and constant.

3. The money is instantly refunded if a cure is not effected.

4. Numerous testimonials are on file at the Company's offices, which would satisfy the most incredulous. A letter just received from Joseph P. Hall, Suffolk, Va., contains the following: "The Dysentery Syrup cures in every case."

The same product is daily coming in from every State in the Union.

This most extraordinary medicine should be resorted to the moment any bad symptoms appear. Seamen, boatmen, travellers, and all others, should have a supply, as its timely use will save life.

The Medical Faculty are astonished at its power, freely confessing there is no other medicine at all used to be compared with it.

THE CHILDREN'S PANACEA is equally efficacious in all the bowel and stomach complaints of children. No mother or physician should be without it.

## Let all the World Know it.

TRUTH IS NO FICTION.

THE subscriber has now on hand, and offers for sale at his farm near Cambridge, (formerly Old Jefferson) in Saline county, Missouri, several thousand young grafted Apple Seedlings, of a thrifty growth, the fruit of which can, with every degree of confidence, be recommended as being of surpassing quality. In this selection you can have a regular succession of summer and fall fruit from the June Apple to the Genet and may, with proper care, have fruits the whole year.

I would say to those who may wish to avail themselves of this opportunity, that the safest time in the year for removing and setting young trees, is in the Fall Season, from and after the first killing frosts, until the freezing of the ground having had, on this subject, the views of the celebrated Horticulturists of Europe, viz: Knight, of England; DuRoi, of France; and Van Mons, of the Netherlands—yet thirty years' experience in the Tree Business has served to establish the principle that practice is better than theory.

I will be ready to send to order any number of Trees that may be wanting North of the Missouri river at Glasgow or Brunswick, or as high up as Camden. The orders can be left with Jas. W. Harris, Glasgow, or Joseph R. McAllister, near Brunswick. It would be well for all who may find it convenient, to send their orders this fall, having then a better opportunity of making a good selection, as Nurserymen have in all cases to adhere strictly to the old maxim, "first come, first served."

## LIGHT! LIGHT!

WHO HAS NOT HEARD OF THE GREAT DRUMMOND.

The inventor of the Great Drummond Light which placed in the Rotunda at Washington, lights the whole city. The same

DRUMMOND

is the inventor and Patentee of an article which for general utility is unsurpassed in Domestic Economy.

The Drummond Candle maker or Candle Stick which makes its own candle out of lard, tallow or kitchen grease, which candle will burn twice as long in proportion to the material consumed as any other light burned.

It is a neat CANDLE STICK, making and wicking its own candle out of tallow, lard, or any grease that will burn. By simply turning the bottom of the Candlestick, a beautiful, hard, smooth CANDLE is forced out of the top, at any desired length you wish—from one inch to two feet in height.

1. It is neat and simple as a common Candlestick; consequently may be managed by a child.

2. By means of this you can convert all your refuse grease, into candles, and thus obtain a light costing from one to three cents per week.

3. The wick is dry and smooth, this no vibration or flickering of the flame, but burns like a sperm candle.

4. The wick may be changed without at all disturbing the candle; if too large put in a small one—or if too small, a large one.

5. You roll in the bottom of the candle maker, or candlestick, wick sufficient to last five or six weeks, where it remains out of sight and out of the way.

6. You may keep your candle at the same height all the time for ten years—no stumps or pieces left.

7. Requires replenishing with grease or tallow once a week.

8. No spilling of grease if it falls or turns over, but as neat and clean as any lady could desire.

9. It cannot get out of order.

10. In proof of their superiority, utility and neatness the immense number sold is sufficient.

The price is uniform and the same all over the United States; and the article requires only to be seen, to convince the most incredulous of the foregoing facts. No family will be without them; and we wrap together the small price asked.

It is a business that men of large or small capital can engage in and make a profit that would astonish any business man at the first glance. The subscriber can convince any practical business man that with a capital of only three or four hundred dollars to commence with, he can make one thousand dollars (at a low estimate) in six months in this country, and men with means not over one hundred dollars, can make from four to five hundred dollars in adjoining territory for sale in as little time.

For further particulars call on the subscriber in Fayette. Office on the south side of the Public Square, where he can be seen for a few days with a sample of the article.

## Wright's Indian Vegetable Pills

CURE FOR FEVER AND AGUE.

RESERVEVILLE, PUTNAM CO., Indiana, July 1, 1848.  
DR. WRIGHT—Some time since your agent left me a supply of Indian Vegetable Pills. I have found said pills to be in great demand for the cure of fever and ague. Mr. James Boyd has a son who has been laid up with fever and ague, and had tried various other remedies, all of which proved of no avail. He determined to try your Indian Vegetable Pills, and by using one box he is now sound and well. Mr. T. Spencer had a daughter, Mr. Hugh Graves a son, and Mr. Chas. Nelson and three of his family were all down at the same time with fever and ague, and had also tried the various other remedies without effect. Your Indian Vegetable Pills soon restored them all to perfect health. I can assure you, from what I have seen, your Indian Vegetable Pills may be relied on for a permanent cure of fever and ague.

Yours, resp't, JACOB DURHAM, P. M.

Also, an acting justice of the peace.
